

Dear Spring 2005 Capstone Class,

I would like to thank many of you for visiting our capstone showcase on Nov 30th , our final presentation sessions and our newly created Webct system . Frankly, I am very optimistic and excited about our Spring 2005 class .

I am looking now for new and ambitious project managers for our 2005 capstone teams across the board. It doesn't matter whether you are CS, IS , IT or HCI since we compose our teams from all departments in an interdisciplinary fashion in this 491/492 combined course .This helps in making our teams more effective and making their skill sets more comprehensive .

However , you can only form a team from the students in your own session duration (i.e.: Tuesday 4-6 PM . Tuesday 6-8 PM, or Wednesday 6-8 PM)

Only project managers have the right to reserve industry-sponsored projects or lead entrepreneurship opportunities . I will release an initial list of Spring 2005 available projects to our approved project managers as early as possible and then discuss with them the various options that they may have .

To become a project manager, you need to apply to me by visiting the following link and filling the project manager application form at :

<http://fs11.formsite.com/caspstone/form180494997/index.html>

When you are prompted to enter your password please enter : capstone

Our new official form linked above enables you to setup and/or return to your account for this form at your convenience . Creating an account enables you to return to this form and your submitted results. An account will also enable you to partially complete this form and return later to finish the form or update it whenever necessary. The account you establish is only for this form.

Simply put , The earlier you apply the better your chance and opportunities . When you are prompted to enter your password please enter : capstone

Since I expect that many may have questions or concerns about project managers applications , qualifications and responsibilities I have attached a frequently asked questions (FAQ) sheet for your reference .

I look forward to receiving your application as soon as possible

Thanks again for your early interest in the capstone experience

Sincerely ,

Osama Eljabiri
